# Permacon is Decades of Expertise and Innovation

## A Big Family

Oldcastle APG has over 8,500 family members throughout our network of facilities across North America. With over 200 locations, we take pride in being the largest producer of architectural building products on the continent. As industry leaders, we drive the trends and set the standards for quality and innovation.

## Locally Made

With eight plants across Quebec and Ontario, Permacon specializes in manufacturing high-quality concrete products crafted to meet the evolving needs of today and tomorrow.

## Continuous Innovation

Permacon continually refines its processes to deliver products that embody the latest in innovation and excellence.

## Aesthetics and Environment Combined

Experience the perfect blend of nature and design with our permeable pavers. Craft elegant, sustainable spaces with ease.

**ECOLOGICAL**  
Eco-friendly products for sustainable design.

**ZERO EXCESS**  
Zero excess approach to reduce our impact on the environment.

**LOCAL PRODUCTION**  
Commitment to the community and the local economy.

**PERMEABLE**  
Permeable pavers to protect our water resources.

# What's **NEW** this year

**Melville 18 x 36**  
DuraFusion  Slab

This slab features an elongated format and a smooth DuraFusion finish, ideal for modern designs and a wide range of layout possibilities. P 42

**Melville 14 x 24**  
DuraFusion  Capping

Featuring a versatile 14 x 24 format and a DuraFusion finish, this capping fits effortlessly with walls, steps, and pool edges. It's the perfect match for the entire DuraFusion collection. P 85

## Explore the Luxury Collection

Build your dream backyard with the DuraFusion product line in combination with our accessories to create your outdoor living space.

# The Beach at Your Feet

The soft touch of sand,  
captured in stone.

Melia DuraFusion Slab - Amber

Bathed in sunlight, this backyard Oasis recalls the peaceful charm of the seaside. The luminous texture of the Melia slab invites you to walk barefoot and enjoy a moment of pure serenity. Around the pool, the layout blends simplicity and elegance, extending the pleasure of warm summer days.

# Natural Perfection

Elegance that blends into the landscape.

Surrounded by nature, the poolside area fits in as if it had always belonged there. Each slab gently reflects the light and enhances the serenity of the space.

City Slab - Alpine Grey

The kitchen, dining area, and pool blend together seamlessly. Mega Melville slabs create a structured and elegant composition where every grey hue finds its place. The design stands out for its warm and refined appearance.

Mega Melville Slab - Range Scandina Grey

Design in Tune with Nature  
A balanced design where every detail feels right at home.

## The Calm of the River in the Distance

Near the water, this living space focuses on the balance of materials. The Melville 60 slab, with its soft tones and clean lines, creates a contemporary living space. The glass fence frames the space without blocking the view, giving the impression of being on a boat.

# Checkerboard Elegance

A checkerboard design creates a stylish visual effect. Melville 24 x 24 slabs in harmony with the bricks of the house, ensures consistency between the architecture and the pool entrance, where a welcoming outdoor living space extends.

Melville 24 x 24 Slab - Range Scandina Grey and Range Newport Grey

At Dawn,  
Time Slows  
Down

Mega Melville Slab - Range Scandina Grey

# The Prestige of Simplicity.

A noble surface,  
designed to last.

A format designed to magnify large spaces.

The Mega Melville slab in range Amber Beige creates a peaceful setting. With its smooth surface, it pairs beautifully with wood and metal for a seamless continuity. The pool area becomes a place of relaxation, combining design and comfort.

Mega Melville Slab - Range Amber Beige  
Melville Plus Capping - Range Amber Beige

Geometric perfection and balanced serenity.

Between straight lines and gentle curves, the space feels harmonious. The slabs come together in a soothing ensemble, where every detail finds its balance, creating an atmosphere that combines precision, calm, and timeless beauty.

Rustic  
Reimagined

# Timeless Luxury

A complete outdoor setting designed with luxury in mind—featuring a backyard patio, lounge pavilion, pool, and heated driveway. The fine lines and subtle nuances of the pavers and slabs create a smooth, seamless transition that extends the home's elegance into the outdoors.

## 50-Year Warranty | Residential Landscape

Permacon's 50-year warranty applies to landscape and masonry products including Suretouch intended for residential use<sup>1</sup>. This warranty statement affirms that products manufactured by Permacon meet the requirements of CSA (Canadian Standard Association) and ASTM (American Society for Testing and Materials) standards.

For details regarding commercial applications, please refer to our institutional, commercial and industrial warranty.

Permacon guarantees that, as of the date of delivery, its concrete products are free from manufacturing defects. Provided that the conditions set forth below are met, Permacon guarantees the structural integrity of the concrete in its landscaping and masonry products for a period of 50 years from the date of the product's purchase. The warranty applies to normal, non-abusive use of the product. To preserve the original appearance of your products, we recommend that you consult our Landscape Maintenance Guide available on our website.

**IN ALL CASES DETAILED BELOW, THE WARRANTY IS LIMITED TO THE PRODUCTS' MARKET VALUE.**

### How do I make a claim?

Proof of purchase is required to proceed with a claim request. No claims will be accepted without proof of purchase.<sup>2</sup>

All claims must be reported within 15 days of the discovery of a product's defect. To validate a claim, a Permacon representative will arrive to inspect the defective products in order to confirm whether the claim is eligible. Therefore, it is essential to provide Permacon with the necessary access to inspect and take photos of the affected products.

This warranty is the only one that is presently offered. Because Permacon continually improves and modifies its products, it may alter and discontinue products at any time, and therefore may replace warranty-covered products with products of similar quality or offer monetary compensation if the products under warranty have been discontinued or are no longer on the market while the warranty is active.

In the event that a product is found to be non-compliant by Permacon or an authorized representative of the company, and in order to proceed with compensation, Permacon will take into account the number of months during which the landscape or masonry products were in the possession of the owner or their contractor, up to the date of the claim, and will prorate the amount of the payment or replacement to be made accordingly.

For example, if the purchaser makes a warranty claim in the last month of the 10<sup>th</sup> year of the warranty (i.e., the 120<sup>th</sup> month), the manufacturer, at its sole discretion, shall either:

- Provide a replacement for the product in question if still available (only the defective product will be replaced);
- Return 480/600 of the price paid for the products to the owner. No labour, transportation, or other compensation will be covered by Permacon.

### Transferability

The warranty is transferable. Proof of warranty registration will still be required in the event of a claim. The prorated period will be based on the 50-year warranty period remaining as an assignee, if the purchaser transfers the warranty to a subsequent owner, as described above.

### Installation

When installing masonry products, all work must be cleaned to remove any residues and contaminants left on the stone or brick. Permacon accepts no responsibility for stains and colour changes caused by installation residue or the consequences of cleaning these residues.

### Colour

**The presence of natural ingredients used in the manufacturing process varies from one product to another. Therefore, the product received on the job site will not be completely identical to the products displayed in our commercial presentations (catalogs, samples, displays). Any difference in colour will not be covered by the guarantee.**

Photos of our products in landscape and masonry brochures, as well as in displays such as masonry panels and landscape racks at our distributors, are not an exact representation of the products that will be delivered to the job site. Permacon offers a variety of products with different colours to reproduce the appearance of natural stone. It is therefore strongly recommended that you view several products directly from your authorized Permacon distributor to see all available colours.

**It is the purchaser's responsibility to approve the products (and their colour) delivered to the job site prior to installation to confirm satisfaction. It is also recommended to mix products from different pallets received on the job site. Since variations in colour shades are a natural phenomenon, Permacon does not guarantee colour uniformity between different pallets on the same job site. Product installation constitutes acceptance.**

### Polymeric film

A whitish polymeric film can be found on the surface of Permacon's products. This is the result of an inadequate use of polymeric sand. Improper cleaning of slabs and pavers prior to the application of water on the product surface can cause this whitish polymeric film. This film does not affect the structural integrity of the product. Permacon cannot be held responsible for this phenomenon, which is not covered by the warranty.

### Efflorescence

White traces on the surface of the product are caused by a natural phenomenon called efflorescence. More visible on darker products, efflorescence affects neither the intrinsic technical qualities nor the structural integrity of Permacon's products. The possible appearance of efflorescence cannot be the subject of any guarantee. In most cases, efflorescence disappears by itself over time.

### Exclusions

A landscape or masonry product installed on an area of more than **100 square feet** confirms the acceptance of the product received on the job site and that no claim can be made to Permacon regarding the colour, size, or texture of the product.

This warranty excludes all products not supplied by Permacon, as well as any defects, failures, or damages that may result from the actions listed below:

- Contact with chemicals or cleaning products;
- Damage caused by pressure washers;
- Improper installation or other construction activities that do not comply with the installation standards established by CMHA or IMQ, the National Building Code or the installation methods and tips recommended by Permacon. The installation guides provided by Permacon represent certain installation situations and are not exhaustive. It is therefore strongly recommended that you consult a qualified professional to ensure the proper installation of Permacon products on a specific job site;
- Defective design or construction resulting in sagging, shifting, or failure;
- Breakage due to shock, impact, or excessive load during handling, use, or transportation;
- Natural disaster or other uncontrollable event;
- Breakage and damage to products caused by soil movement or building movement as well as misuse of construction, compaction, or snow removal equipment. The warranty does not cover surface deterioration caused by the misuse of sodium chloride (NaCl) to de-ice pavers, slabs, or steps;
- The use of sodium chloride (NaCl) on the following products:
  - Step Valentia;
  - Valentia Block;
- Be.OnStone, Mirage and Techniseal products sold by Permacon.

<sup>1</sup> The following locations are defined as residential: family dwelling of five units or less, single family homes, garden suites, or townhouses.

<sup>2</sup> The following documents are considered valid proof of purchase: invoices directly from an authorized Permacon distributor, or invoice from a landscape contractor, general contractor, mason, or home builder.

Since 1952, all Permacon products have been  
made with passion and pride in Canada.
